

Abstract

Of the draft of the law amending and supplementing the Dahir promulgating law No. 1-72-255 of 18 moharrem 1393 (February 22, 1973) on the import, export, refining, recovery in refinery and center Packer, storage and distribution of hydrocarbons.

In the framework of its energy strategy , Morocco has launched major reforms in the oil products sector.

After the privatization of the refining and distribution of hydrocarbons and import liberalization, Morocco has set the goal to liberalize oil products prices from first of December 2015.

To ensure better regulation of oil products market after its liberalization it is necessary to amend the Dahir establishing law N° 1-72-255 of 18 moharrem 1393 (February 22, 1973) on import, export, refining, recovery in refinery and centre packer, storage and distribution of hydrocarbons as amended and supplemented by Dahir N° 1-95-141 of 6 rabii I 1416 (August 4, 1995), with the objective to :

- strengthen the quality control of oil products
- ensure its availability
- as well as the supply of domestic oil products .
